PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience building scalable, high-performance web and mobile applications using React.js, Next.js, React Native, and Node.js. Proven ability to collaborate with cross-functional teams, integrate RESTful APIs, and deliver user-centric solutions for global clients. Strong foundation in modern JavaScript, backend services, cloud tools, and AI integrations. Seeking international or remote opportunities in fast-paced, product-driven teams.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Typescript, HTML

Frameworks: React Native, ReactJS, Next.js, Node.js, Nest.js, FastAPI/Flask, Express.js/Fastify

State Management Redux Toolkit/RTK Query, React Query, Zustand

Databases MongoDB, PostgreSQL, SQL

Styling Libraries CSS, Bootstrap, Material UI, Tailwind CSS, GSAP/ChartJs

Cloud DevOps AWS (EC2, S3, SQS), Firebase, Docker, Redis, GCP, Strapi, MixPanel

Technologies and Tools Jira, Trello, Clickup, Headless CMS, Agile Methodology, Waterfall Model, Git/GitHub, VS Studio/VS Code, Jupyter Notebook, Android Studio, XCODE, LLM Model Integration, HuggingFace, App Store/GooglePlay Store Deployment

WORK EXPERIENCE

Software Engineer

HashPotato, Karachi, Pakistan

04/2025 - Present

- Developed and maintained full-stack web and mobile applications using React Native, Next.js, and Nest.js, ensuring high performance and scalability. Contributed to mobile app development with deep API integration, enhancing UX and reducing load times by 20%.
- Integrated Stripe Subscription billing, enabling automated payments and customer lifecycle management across multiple tiers.
- Built and deployed microservices leveraging AWS (S3, EC2, SQS) and Google Cloud Storage for scalable, secure data management.
- Collaborated closely with cross-functional teams to design, test, and deploy maintainable code following CI/CD best practices.

Associate Software Engineer

360XpertSolutions, Karachi, Pakistan

06 2023 - 03 2025

- Designed and developed responsive web and mobile interfaces with a strong focus on usability and accessibility.
- Conducted user research and usability testing to improve product experience.
- Worked closely with designers to ensure accurate UI implementation across devices.

Freelancer

Part Time, Remote

05 2023 - 04 2025

- Delivered custom web and mobile solutions for international clients using React, Next.js, and React Native.
- Integrated third-party APIs, authentication systems, and payment gateways.
- Built scalable, maintainable applications aligned with client business goals.
- Managed end-to-end project lifecycle from requirements gathering to deployment.

EDUCATION

University of Karachi (UBIT)

Bachelor of Computer Science

Karachi, Pakistan

2021 – 2025

Relevant Coursework: Object-Oriented Programming, Databases, Discrete Mathematics, Data Structures & Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures & Algorithms, Human-Computer Interaction, Network Security & Cryptography

PROJECTS

- **Disease Prediction System — FYP**
Built a desktop app using Electron.js integrated with a FastAPI microservice to predict diseases from uploaded reports; utilized and fine-tuned pre-trained ML models for real-time inference.
- **Immigration Services Website (US, Canada, UK)**
Designed and developed a responsive immigration consulting website Implemented SEO-friendly layouts, mobile-first design, and scalable frontend components for international users.
- **Korangi City Lab Website**
Designed and developed the official website for Korangi City Lab using React and Vite. Built a responsive and modern UI with Tailwind CSS and Radix UI, incorporating smooth animations via Framer Motion. Implemented routing, SEO optimization, and interactive components to enhance user experience and accessibility across devices..
- **Checkpoint Spot — Event Marathon Management App**
Developed a React Native mobile application by converting Figma designs into production-ready screens. Implemented Redux Toolkit for state management and integrated REST APIs for real-time data handling.
- **Employee Performance Rating System**
Built a full-stack mobile application using React Native, Node.js, and PostgreSQL. Developed RESTful APIs and ensured seamless frontend-backend integration for employee performance tracking.
- **Al Jidar Steels — Manufacturing Website**
Developed a responsive corporate website for a Riyadh-based manufacturing company using Next.js and Tailwind CSS. Optimized UI for performance, accessibility, and global audiences.

CERTIFICATIONS

- **Oracle OCI Generative AI Professional** — Oracle (*Ongoing*)
- **Women Tech Quest Program** — 10 Pearls
- **Software Engineering Bootcamp Training** — 360Xpert Solutions
- **Google Developer Student Clubs Certificate** — JavaScript Training
- **Microsoft Learn Student Ambassadors Certificate** — JavaScript Training
- **International Symposium on Artificial Intelligence & Robotics** — IEEE Computer Society
